Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: With regard to the statutory rejection, the examiner explained that the claims must recite a concrete, tangible and useful result. Upon discussion, the examiner agreed that a step of displaying "calculations" would be supported by at least Figures 6 and 8. Mr. Kauffman pointed to further support for a display step in the specification. Mr. Townes provided a summary of the claimed method and a verbal description of what is meant by "conjugated caps." The examiner stated that clarification of his points in the claims would be helpful, and reminded the attorneys that any amendment must be supported by the originally filed disclosure. No agreement was reached for specific claim amendments. .
